

# Study Edge

**Bamsi has partnered with study edge for your success. It is a supplemental tool to aid your learning, it does not replace your class! Note that most core and foundational subjects areas such as math, biology, chemistry, business, etc. Are covered.**

## **Why Study Edge?**

They save you time studying and get you better grades at the same time by helping you understand the concepts faster and easier. You can watch videos and complete practice problems when you want, and where you want.

All memberships include access to Short Concept Videos, Study Guides (in the form of downloadable PDFs), and Practice Problems with video solutions! Short Concept Videos break down all the information concept by concept, with problems similar to your homework along the way. Their Study Experts analyze, organize, and develop Study Materials specific to your subject to help you learn and understand the material, providing some entertainment along the way. We hope you find it beneficial!
